

**Modern Airships - Part 2, Rev. 6 (17 March 2024) incorporates  
the following changes since Rev. 5 (10 March 2022)**

**New articles:**

- Strasa.Tech – HAPS platforms (30 May 2022)
- Chinese Academy of Sciences – Hybrid airship for airborne electromagnetic (AEM) surveying (15 June 2022)
- Aere Airships (22 July 2022)
- Cloudline – autonomous cargo drone airship (16 October 2022)
- China -Mobile – Cloud One – 5G base station aerostat (19 October 2022)
- Chinese Academy of Sciences – Jimu No 1 – high altitude aerostat (19 October 2022)
- Shanghai Jiao Tong University – research airships (19 October 2022)
- Suzhou Ark Aviation Technology Co. Ltd. – drone blimps (19 October 2022)
- Challenger Aerospace Systems – drone blimps (29 October 2022)
- Airbine™ Renewable Energy Systems (ARES) – Airborne Wind Turbine (AWT) (11 January 2023)
- ADASI – tethered aerostats (19 June 2023)
- Aeerstatica Energy Airships – tethered aerostat wind generator (19 June 2023)
- Aero-T – SkyGuard tethered aerostat (19 June 2023)
- Airborne Industries – tethered aerostats & parachute training balloons (19 June 2023)
- Augur RosAeroSystems – tethered aerostats (19 June 2023)
- Hangzhou Gauss Inflatable Tech Co., Ltd – drone blimps & tethered aerostats (19 June 2023)
- DRDO ADRDE – tethered aerostats & small unmanned airship (19 June 2023)
- Israel Aerospace Industries (IAI) – HAAS tethered aerostat (19 June 2023)
- Jülich Institute – FieldShip drone blimp (19 June 2023)
- Otonom Teknoloji – tethered aerostats & drone airship (19 June 2023)
- RT LTA Systems Ltd – tethered aerostats (19 June 2023)
- Utah Aereon Corp. – Aereon SA-1 variable buoyancy propelled airship (9 September 2023)
- LTA Windpower Inc. – PowerShip airborne wind turbine (13 October 2023)
- AVEALTO – Wireless Infrastructure Platforms (WIPs) (27 October 2023)
- Lockheed – Starship SRA hybrid thermal small rigid airship (27 October 2023)
- Gibbens & Associates – AirLighter and cycloidal propellers (27 October 2023)
- Galileo Systems – Graf Galileo High Altitude Airship (HAA) (12 January 2024)
- CIRA (Italian Aerospace Research Center) – hybrid HAPS (29 February 2024)

**Updated articles:**

- Atlas LTA Advanced Technology, Ltd. (2 June 2022)
- Aerial Concept Group & Transoceans (3 September 2022)
- Aero-Nautic Services & Engineering (A-NSE) (3 September 2022)

- Strasa Tech – HAPS platforms (4 September 2022)
- H2 Clipper (11 October 2022)
- Buoyant Aircraft Systems International (BASI) – MB-30T & -100T (9 January 2023)
- Galaxy Unmanned Systems – blimps (9 January 2023)
- A-NSE (19 June 2023)
- Airstar – airships, tethered aerostats & stratospheric balloons (19 June 2023)
- Shanghai Jiao Tong University – research airships (19 June 2023)
- Dirisolar (19 June 2023)
- Helios – SolarAirShip – High Speed Solar Airship (HSSA) (19 June 2023)
- Hemeria (former CNIM Air Space) (19 June 2023)
- Phoenix – gravity-propelled drone airship (28 July 2023)
- Solomon Andrews – Aereon & Aereon 2 (5 August 2023)
- Cloudline – UAV cargo blimp (5 August 2023)
- Walden Aerospace / LTAS – Electro-kinetic (EK) propulsion airships (12 August 2023)
- Walden Aerospace / LTAS – Variable buoyancy propelled airships / aircraft (12 August 2023)
- Euro Airship – rigid airships (17 August 2023)
- Stratosyst – Skyrider HAPS (27 September 2023)
- Moved to Part 1: Voliris airships (5 October 2023)
- Walden Aerospace / LTAS\_EK propelled airships: (5 January 2024)
- Moved to Part 1: Sky Station International – Sky Station HAPS (12 January 2024)
- Beijing Aerospace Technology Co. & BeiHang – Yuanmeng stratospheric airship (12 January 2024)
- Voliris airships (29 January 2024)
- Blackwater Airships / Guardian Flight Systems – Polar 400 / 450, Polar 600 & Polar 3000 (6 February 2024)
- Varialift Plc. – ARH-PT, ARH 50 & 250 (24 February 2024)
- Anumā Aerospace – partial vacuum airship (26 February 2024)
- H2 Clipper (11 March 2024)
- Major reorganization of the main text and update of the graphic table. Moved from Part 1: Airspeed, AURORA, Karma, AVIC AS700, Vantage, Tumencotrans BARS & Bella-1. Moved to Part 1: Aeros 40, Aeros G2R, Blackwater, Buoyant Aero, Challenger, Galaxy, Hyperblimp, Altaeros Energies aerostats (16 March 2024)

**Added indexes to aid navigation of Parts 1, 2 & 3 (17 March 2024)**
